

PINGGANG PINOY®

A food guide using a food plate model to show the recommended proportion by food group in every meal.

GO ENERGY GIVING

Go for rice, root crops, pasta, bread, and other carbohydrate-rich foods, which provide energy to support bodily functions and physical activity.

Choose whole grains like brown rice, corn, whole wheat bread, and oatmeal, which contain more fiber and nutrients than refined grains and are linked to lower risk of heart disease, diabetes, and other health problems.

GLOW BODY REGULATING

Enjoy a wide variety of fruits and vegetables, which are packed with vitamins, minerals and fiber needed for the regulation of body processes.

Take green, leafy vegetables, which have high iron and folate content to support the increased requirement for these critical nutrients.

GROW BODY BUILDING

Eat fish, shellfish, lean meat, poultry, eggs, and dried beans and nuts needed for the buildup of mother's muscles and baby's tissues.

Have enough animal-based protein foods, which provide more absorbable iron.

Include fatty fish in the diet like tuna, sardines, and mackerel 2-3 times a week to provide essential fatty acids for the child's brain development.

Consume milk, milk products and other calcium-rich foods like *dilis* and small shrimps for strong bones and teeth.

WATER

Drink lots of water every day for adequate hydration.

Limit intake of sugar-sweetened beverages to reduce the risk of obesity and tooth decay.

HEALTH TIPS:
Eat less salty, fried, fatty and sugar-rich foods to prevent chronic diseases.
Take folic/iron supplements to meet daily requirements.
Do not smoke and drink alcoholic beverages.
Understand nutrition information on product labels to make smart food choices.

Improve maternal health through regular check-ups and deliver baby in a health care facility.

**pregnant & lactating
women**

*This is intended for healthy pregnant and lactating Filipino women. Individuals with specific health conditions like hypertension and diabetes should consult a registered nutritionist-dietitian or any health care provider regarding their energy and nutrient needs.

HOW TO FILL UP YOUR PLATE

PREGNANT

LACTATING
